## **CAD Market in Electrical and Electronics Sector in North America 2015-2019**

**Research Report on " CAD Market in Electrical and Electronics Sector in North America 2015-2019 ".**

## About CAD

CAD is an effective and efficient tool for modeling and designing products and components with ease and accuracy. These solutions enable end-users to digitally prototype their products before production. They help engineers, architects, and other design professionals draft industry-specific products to enhance the development of products. CAD solutions are widely adopted by several industries such as automotive, aerospace and defense, industrial machinery, electrical and electronics, and others. These solutions enable end-users to digitally prototype their products before production.

Technavio's analysts forecast the CAD market in the electrical and electronics sector in North America to grow at a CAGR of 4.14% over the period 2014-2019.

## Covered in this report

The CAD market in the electrical and electronics sector in North America can be segmented into two: 3D CAD and 2D CAD.

Technavio's report, CAD Market in the Electrical and Electronics Sector in North America 2015-2019, has been prepared based on an in-depth market analysis with inputs from industry experts. The report covers North America; it also covers the market landscape and its growth prospects in the coming years. The report also includes a discussion on the key vendors operating in this market.

## Key countries

- Canada
- Mexico
- US

## Key vendors

- Autodesk
- Dassault Systmes
- PTC
- Siemens PLM Software

## Other prominent vendors

- 3D Systems
- Graebert
- IMSI/Design
- IronCAD

**Market driver** : Reduction in product design and development time, manufacturing process

**Market challenge** : Decline in sales of electrical and electronic equipment and components

**Market trend** : Development of cloud-based CAD
